-----------------	----------------------	--------------	---------------------	-------------

Sports Day	Assessment week	Y9 IGCSE Timetable	Y11 Post IGCSE Timetable
<p>Sports day this year will make sure to include all students in each activity. Students will move through sports stations to try out for the best times, heights and distances in a variety of track and field events.</p> <p>We continue to push for greater participation and to further the opportunities available to all students</p>	<p>The final term assessment week is already upon us and is a final opportunity for students to showcase their skills in standardised testing.</p> <p>We will use this information to support teaching moving forward as a contributing factor to setting for next year.</p> <p>Y9 will have a different approach with subjects finalising Year 9 scores as well as exploring important IGCSE skills to support progression feedback.</p>	<p>Year 9 will move from their previous timetable into following their chosen IGCSE subjects. This will allow each student the opportunity to engage with the subjects and make sure they have chosen the correct option for them before starting year 10.</p>	<p>Year 11 students complete their IGCSE examinations and compulsory education this month. As part of our programme of study we have created transition support for them moving into their next steps.</p> <p>Students will explore a range of opportunities to build their profile for college as well as creating a well rounded mix of social activity, sport and academic development.</p>
